

What accessories do I need for a bespoke solar panel system?

Our range of solar accessories covers everything you need to create a bespoke solar panel system. Everything you require from replacement 12V low energy bulbs and holders to solar power inverters, charge controllers, UV stabilised cable and solar panel mounting brackets.

What is a 12V solar panel?

A 12V solar panel is used with a 12V charge controller, a 12V battery bank, and a 12V inverter. 12V panels are becoming less common, in favor of 20V and 24V panels, but manufacturers like Rich Solar do still offer 12V solar panels.

Which products do I need for a 12V Solar System?

For a 12V Solar System, you will need high quality solar components designed specifically for 12v DC applications. We offer various products such as cables, fuses, mounting, 12v lighting, and inverters. If you require a specific product, please let us know as we have a wider range available in store.
