

Is a 6 cell battery better than a 4 cell?

A 6 cell battery is usually bigger and heavier than a 4 cell in terms of physical size. It has more capacity so that it will last longer per charge, but this also means that your laptop is even bulkier (a compatibility issue to some laptop owners).

How many cells in a 4 cell battery?

The more the Whr is the better it will deliver you. 4-cell means that it has 4 cells in its battery pack along with 4 lithium-ion 18650 type cells. The battery capacity always depends on the user's purposes. 18650 can provide you 2Ahr range to 3.4Ahr, so to be honest you should always look for the higher Whr and not the number of cells.

What does 4 cell battery mean?

4-cell means that it has 4 cells in its battery pack along with 4 lithium-ion 18650 type cells. What does WHR mean in a battery? Watt Hour. Watt-hour basically means the amount of power used over an hour (1hour). How long does a 6-cell battery last? Charge times mainly depend on the battery quality and the reserve capacity.

What is a lithium ion cell?

What is a Lithium-ion cell? A lithium-ion cell (also known as a Li-ion cell or battery) is a member of a family of rechargeable battery types in which lithium ions move from the negative electrode to the positive electrode during discharge and back when charging.

What is a lithium ion battery?

Lithium-ion cells use an intercalated lithium compound as the electrode material, compared to the metallic lithium used in a non-rechargeable lithium metal battery. The lithium-ion cells that Torch Direct supply are high quality "protected cells" and have a nominal voltage of 3.6/3.7 V and are charged at approximately 4.2 V per cell.

How many Mah does a 6 cell battery have?

So, the amount of cells doesn't define the power of the battery in a frank discussion. In this case, 6-cell comes with 4400mAh which is way more than a 4-cell battery (2600mAh). More mAh means more run-time. If you need a battery for heavy use and long run-time then 6-cell should be the priority but other than 4-cell should do just fine.
