

What does all day battery mean?

All day battery means Blackberry KeyOne to me now really. That's the gold standard for me. It means I never worry or even think about my battery. Honest to god I don't even know if it has a percentage in the battery icon at the top or not, I never ever look at it. I use it all day to call, text, browse, watch Youtube, check Reddit, take photos etc.

What does 'all day' mean?

means absolutely nothing. just a marketing term. it's stupid. all day is like 24hrs minus sleep and change. and that doesn't happen often at all. It'll last my work day and last the rest of the evening. I constantly have gps tracking on, Bluetooth, watch videos, listening to music, take pics and write notes.

Which laptop has the best battery life?

The Windows laptops with the best battery life are currently Snapdragon laptops, which means they're powered by Qualcomm's Arm chips and thus have some compatibility issues with select software. The top MacBooks all run on Apple silicon now and have good software support for everything except games, which are more hit-and-miss on Apple's laptops.

How long does a phone battery last?

My current phone got a 11000 mAh battery (yes, 11 amp hours) and it does actually last a whole day with constant use. I get about 10 hours of screen on time with GPS and music streamed via Bluetooth, about 2 days of heavy use and about 4 days of regular use. I've read that other people has gotten 1-2 weeks of battery with little to no use.

Which MacBook Pro has the longest battery life?

The new 16-inch MacBook Pro M4 Pro delivers the longest-lasting battery life of any modern MacBook to date, lasting nearly 21 hours in our testing. Plus, it's got plenty of ports and a lovely mini-LED display. 3.

Is Pokemon Go a battery destroyer?

Battery life when new was slightly better than my aging Moto X (2013) and I now have to charge it 3 times a day with light to moderate use. Trying to play a game like Pokemon Go drains the phone from 100% in just 30 minutes. I carry a battery bank with me at all times. S8, same gig. Pokemon Go is a battery destroyer.
