

Can a product be certified in Argentina?

These products may be used for testing or certification purposes but cannot enter the consumer market until compliance is confirmed. This new regulation, through Resolution 237/2024, marks a major step forward in improving the efficiency of Argentina's certification system.

How is Argentina enhancing market access and Consumer Protection?

By streamlining procedures, expanding the recognition of foreign certifications, and introducing new technology like QR codes for product marking, Argentina is enhancing both market access and consumer protection. For more information on Argentina type approval requirements, please contact iCertifi. Your email address will not be published.\*

How will Argentina's new certification framework affect manufacturers?

The new framework allows for greater acceptance of foreign certifications from entities that have agreements with Argentina. Certifications issued by foreign bodies accredited under multilateral recognition agreements will be valid, potentially simplifying the process for manufacturers who have certifications from other countries.

Murata Safety Standard Capacitors offer a surface mount type IEC safety certified ceramic capacitor for low-profile power supplies. Ir para o conte&#250;do principal. 0800-892-2210. Entre em contato com a Mouser 0800-892-2210 | Feedback. Mude a localidade. Portugu&#234;s. English

The following table indicates the product for which mandatory safety certification is required to be commercialized in Argentina market and the corresponding certification scheme to be applied.

The changes provided by the Resolution are apparently designed to safeguard that marketed products comply with Argentina's technical standards and regulatory ...

"Across-the-line" capacitors should be replaced with type X2, X1/Y2 or Y2 safety capacitors. o"Line-to-ground" line filter capacitors should be replaced with Y2 or X1/Y2 safety capacitors. (do not use X2 type). A Y2 capacitor can safely be used in place of an X2 capacitor, but an X2 capacitor should not be used in place of a Y2 capacitor.

Murata Safety Standard Capacitors offer a variety of IEC 60384-14 Y1 class safety-certified ceramic capacitor for low-profile power supplies. These Murata capacitors are ideal for all AC-DC switching power supplies where a low profile is sought for compact AV equipment, LED illumination, or 1U rack-mounted equipment. ... argentina@mouser Av ...
