

The battery anti-explosion safety valve, it is to be made of explosion-proof electrode slice and valve body pedestal, the shape of valve body pedestal is a torus, in the valve body pedestal, ...

The invention discloses a laser welding device for an explosion-proof valve of a lithium battery. The laser welding equipment includes laser welding device, link joint conveyer belt and cooling ...

The Prismatic Battery Upper Cover Explosion-Proof Valve Laser Welding production line covers the entire process, from automatic loading, marking, code scanning and grading, to Explosion ...

The utility model relates to an explosion-proof valve and battery package, wherein, explosion-proof valve includes along explosion-proof valve body, ventilated membrane, second fire ...

The welding process for the explosion-proof valve is demanding. Explosion-proof valves can be welded with pulsed and continuous lasers. Continuous laser welding requires ...

Price range: 300,000-500,000Power: 1500WWarranty period: 2 yearsBrand: Jinghai LaserThe blast valve is a thin-walled valve body on the battery seal plate. When the internal pressure of ...

The utility model provides an automatic weld equipment of power battery explosion-proof valve relates to automatic assembly technical field. The automatic welding equipment comprises: the ...

Deviation from these requirements can impact the battery's safety. Explosion-proof valves commonly use laser splicing welding due to its proven high-speed and high-quality ...

For specific application scenarios such as joining of shell and cover plate of battery, sealing of explosion proof valve of battery, welding of battery pole and connection of pole ears and ...

The invention discloses an explosion-proof valve of a lithium battery, which comprises an explosion-proof valve plate, wherein the explosion-proof valve plate comprises a welding part, ...

2kw Gantry Type Power Battery Cell Explosion-Proof Valve Laser Welding Machine Lithium Battery Spot Welder, Find Details and Price about Speed Fiber Laser Welding Equipment ...
