

Is a car battery covered by insurance?

The battery - whether owned or leased - is covered for accidental damage, fire and theft. Charging cables, charger and adaptors belonging to you are covered for accidental damage, fire and theft while in the car, in use at a garage or at home. Liability cover in case someone trips over the charging cable outside your property.

What is electric car insurance?

Electric car insurance is just car insurance, which has some features designed to protect your electric or hybrid vehicle. Our comprehensive insurance includes cover for your battery against accidental damage or theft, protection for your charging equipment and out of charge recovery if your EV runs out of battery on the road.

What if my product's battery is faulty?
