The new series combines over 20 years of experience and innovation gained from selling essential tools to nearly every car and truck OEM in the world, with the industry standard ...

The pack price itself could further diminish "as more BEV specific platforms are introduced," Frith added. The research group reported lower than US\$100/kWh on pack prices for e-buses in China, but Frith said that we will see the average price across the battery storage industry "pass this point" in a few years.

The new series combines over 20 years of experience and innovation gained from selling essential tools to nearly every car and truck OEM in the world, with the industry standard conductance technology for battery testing, which makes testing safe, fast, and simple.
