

Should you buy solar panels from China?

Now it may seem easy to think shouldn't I let my energy supplier know if I have solar panels? But China is currently the leader in solar development, and if you look at any top 10 supplier you might be able to find China's involvement, with a few exceptions. It is important to communicate with your energy supplier about having solar panels.

What is a solar panel?

A solar panel is a device designed to convert sunlight into electricity using photovoltaic (PV) cells. These cells are typically made of semiconductor ... WSL Solar has been a professional manufacturer of custom solar panel and solar solution provider in China since 2006.
