

What does the EIB's new partnership mean for the battery industry?

As part of the new partnership, the EIB envisages investing a further EUR1.8 billion in the wider battery value chain. These joint efforts will result in EUR3 billion of public support in total for the development of a competitive and sustainable European battery industry.

How does the EIB support the battery value chain?

The EIB supports the wider battery value chain, including raw materials, research, production, charging infrastructure, and recycling. Over the past six years, the Bank has provided EUR6 billion of financing and aims to invest a further EUR1.8 billion.

Why is the EIB launching a new EUR1 billion EV battery-focused call?

Together, the InvestEU top-up, the EIB's own-resource investments, and today's launch of a new EUR1 billion electric vehicle (EV) battery-focused call for proposals from the Innovation Fund highlight the commitment of the European Commission to make the batteries manufacturing value chain more resilient and more competitive.

Cangzhou Huabang Metal Products Co., Ltd. is a processing company specializing in the production of various supporting high and low voltage box changes, automobile generators, starter accessories, photoelectric components, battery housings, military products, and aerospace supporting products. It has obtained IATF16949 quality for many years.
