

## Dual solar panels and dual street lights China

What are all in two solar street lights?

All in two solar street lights are mostly used in commercial solar lighting projects & municipal engineering lighting projects. GM Series All In Two Solar Street Light 20W-120W (LiFePO4 lithium battery built into lamp body, no sensor) FD Series All In Two Solar Street Light 120W-200W (LiFePO4 lithium battery built into lamp body, with sensor)

How to choose the right solar light for your business?

For commercial solar lighting, it must be with a high spec of LiFePO4 battery and a solar panel that can ensure light works at 100% brightness for 12 hours. Only with real high specification, the light can work well even in winter or on cloudy days.

What is the difference between FD and R7 solar street lights?

FD Series All In Two Solar Street Light 120W-200W (LiFePO4 lithium battery built into lamp body, with sensor) R7 Series Split-type Solar street Light 40W-300W (LiFePO4 battery with aluminum battery box separated, under the solar panel or hang on the pole).
