

El Salvador's energy regulator, SIGET, said this week that the country's total installed PV capacity reached 633 MW by the end of 2023. The nation's total installed power generation capacity now ...

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

El Salvador has prioritised renewable energy projects to reduce its dependence on imported fossil fuels and improve energy security. The National Energy Policy 2010-2024 has become a key tool for the country to ...

Energys Solar, is the largest builder of photovoltaic solar power plants for self-consumption in El Salvador, its mission is to help its clients have sustainable and competitive ...

AES-CMI alliance . The Bósforo Project was born thanks to the alliance between AES El Salvador and Corporación Multi Inversiones (CMI). AES is a global company with 38 years of experience that offers sustainable and affordable energy in the 14 countries where it operates. Thanks to a workforce of more than 9,000 people, it delivers sustainable energy to more than 100 million ...

Inciner8 - Model i8-PV55 - Containerized Solar Incinerator. Many regions across the globe do not have easy access to the fuel or electricity required to run a traditional incinerator.

Our first solar photovoltaic generation plant, located in the municipality of Moncagua in the department of San Miguel, counts on installed capacity of 2.5 MW, produced through more than 8 thousand polycrystalline photovoltaic modules. Besides, it counts on a weather monitoring station that allows it to analyze and confirm its appropriate ...

Amsterdam/Oslo - 6 February 2023 - MPC Energy Solutions (MPCES) has announced the start of operations for its Santa Rosa and Villa Sol solar photovoltaic (PV) plants in El Salvador, which have a combined installed ...

The photovoltaic project Capella will be the largest renewable energy-based storage facility in Central America. IDB Invest, the private sector institution of the Inter-American Development Bank (IDB) Group, provides \$28 million in financing for the construction, operation and maintenance of two photovoltaic solar plants with a combined installed capacity of 140MW in the state of ...

After months of execution, we present the Grupo Arquero Solar Project. Enerland arrives in Central America with large projects in its portfolio and an ambitious expansion plan. Today we present our first ...

Salvadorean state-owned hydro power producer Comision Ejecutiva Hidroelectrica del Rio Lempa (CEL) this week launched construction of a 17-MWp solar PV farm in the south-west part of El Salvador.
