

Are greenspace eco cabins energy efficient?

Our GreenSpace ECO cabins are meticulously crafted to lower running costs through energy-saving design principles applied to every aspect, including the building fabric, temperature control, lighting, and ventilation systems. The exceptional energy efficiency of our units is evident in their impressive Energy Performance Asset Ratings.

How smart is the energy storage unit?

The energy storage unit is smart enough to detect when power loads are low (ideal for overnight requirements), turning off the diesel generator and automatically transferring the load to the battery storage, providing silent, emission free energy.

What are eco spec cabins?

Our ECO spec cabins offer a variety of environmentally friendly features, making them cheaper to run and significantly reducing the carbon footprint of your compound. Improved insulation and double-glazing help to keep heat in and cold air out.

Do ecohire cabins burn fossil fuels?

No fossil fuels are burnt when using an ECOHire cabin. No diesel, just clean, renewable energy. With smart design and energy efficient processes, our cabins save 98% energy compared to an industry-standard welfare cabin. The ECOHire range boasts a ultra-durable stainless steel build and is near 100% recyclable. Impressive to say the least.

Do welfare cabins have a generator?

We offer welfare cabins with no on-board generator at all. Our 100% silent-running EcoPro Solar Welfare range has advanced solar capacity meaning all electrical operations run from solar alone with no back-up generator required. Know? eco-conscious welfare products on the market.

Do all 32' cabins come in eco spec?

All of our 32' cabins come in ECO spec as standard. All accommodation depots have their own paint oven so cabins can be sprayed in your corporate colours. With 10 accommodation depots strategically placed across the UK, we can offer genuine nationwide coverage and support.
