

How to install a large battery charging cabinet

What are battery charging cabinets?

Battery charging cabinets are a type of safety cabinet that's designed especially for lithium-ion batteries. Over the recent years, as the prevalence of lithium-ion batteries has grown in workplaces, battery cabinets have become more popular due to the many risk control measures that they provide.

How do you connect a battery charger to a door?

Add each of the chargers to the door and route the wires inside. Plug in each of the wires into the power strip and tie up any extra wire using velcro cord organizers. For the smaller chargers that have a large plug, I placed them on the top shelf and plugged them into the power strip.

How do you mount a charging station to a wall?

There are multiple ways you can mount the charging station to the wall: Use a screw through the back into a stud. Using a French cleat. I decided to use a French cleat because I didn't have two studs accessible in the space where I needed to add the cabinet.

How do you mount a Ryobi charger to a wall?

In fact, the Ryobi charger was so close to the top that I just sent the wire in over the top. Make a hole in the side of the cabinet. This is where the power strip plug will exit to be plugged into the wall. There are multiple ways you can mount the charging station to the wall: Use a screw through the back into a stud. Using a French cleat.

What makes a good charging station?

The top part of the charging station is like a cabinet with heavy-duty hinges and a magnetic latch. The inside of the charging cabinet is open on the top and bottom, allowing air to flow. A good-quality heavy-duty power strip with enough plugs and USB points to accommodate all the chargers. ***This post contains referral or affiliate links.

How do you attach a KREG door to a cabinet?

Attach the two shelves to the side, ensuring that the spacing between the shelves is accurate. Attach the other side to the back and the shelves. Attach the hinges to the door using the Kreg hinge jig. Attach the door to the cabinet aligning the top of the door to the top of the cabinet.
