Will China build a lithium-ion battery factory in Portugal?

Chinese manufacturer CALB is planning on building a lithium-ion battery factory in Portugal, the APA Portuguese environment agency said on Monday. Portugal has the largest reserves in Europe of lithium, the main element in the batteries that power electric cars.

How much money will Portugal invest in a new lithium battery?

The 36 projects will net the country over 2.7 billion euros and are part of the largest influx of such investment in Portugal since 2016. China Aviation Lithium Battery (CALB) will invest 2 billion euros in the state-of-the-art factory - its first in Europe.

Will Portugal invest in a lithium battery factory in Sines in 2023?

A planned lithium battery factory in the port of Sines leads a raft of new foreign direct investment (FDI) projects secured by Portugal in 2023. The 36 projects will net the country over 2.7 billion euros and are part of the largest influx of such investment in Portugal since 2016.

Is China launching a battery plant in Portugal?

The Chinese battery maker CALBand the Portuguese government signed a memorandum on November 2 to launch a battery production plant in the country.

Does APA approve a EUR2 billion lithium battery project?

APA approves EUR2 billion project of CALB(China Aviation Lithium Battery), with 'more than 90 conditions' Chinese group CALB (standing for China Aviation Lithium Battery) has received a favourable environmental impact assessment, with 'dozens of conditions', for its EUR2 billion project for a lithium battery factory in Sines.

What is China Aviation lithium battery (CALB)?

China Aviation Lithium Battery (CALB) will invest 2 billion euros in the state-of-the-art factory - its first in Europe. Set to begin production in early 2026 with an initial annual capacity of 15 GWh, it will expand in 2028 to 45 GWh, with the possibility of doubling capacity in a third phase.
