

List of leading solar power supply companies in South Tarawa

What is the South Tarawa water supply project?

The Green Climate Fund, in partnership with the government of Kiribati, the Asian Development Fund, the World Bank and the Global Environment Facility, is enabling the implementation of the South Tarawa Water Supply Project, involving the construction of two desalination plants and a solar PV system to augment Kiribati's water supplies.

Who owns solar power in Kiribati?

The government-owned Public Utility Board supplies diesel generated power in South Tarawa. The Kiribati Solar Energy Company provides electricity to outer islands through solar home systems. Initially formed in 1984 by an NGO, the company is now owned entirely by the government. There is little private sector involvement.

Who are Africa's leading solar energy companies?

As a pioneering renewable energy company, SolarAfrica has been named the continent's leading solar energy firm twice, scooping the prestigious African Solar Company of the Year award in 2021 and 2023 at the Africa Solar Industry Association (AFSIA) Awards held in London and Nairobi respectively.

What is the main source of freshwater in South Tarawa?

Groundwater is the main source of freshwater for South Tarawa and outer island residents. Due to the uneven distribution of rainfall throughout the year, rainwater is considered only as a supplementary water source. The government-run Public Utilities Board co-ordinates and manages water supply and sewage disposal on South Tarawa.

Why should you choose Starsight energy & solarAfrica?
