

What should I know before posting lithium batteries?

Before posting lithium batteries, it is useful to note down details that the carrier might need: Decide if the batteries will be contained inside electrical equipment or packed separately but together with the equipment. Confirm the total number of batteries to be posted. Inspect each battery to make sure it is undamaged.

What are some general tips for lithium battery storage safety?

Below, CellBlock FCS has prepared some general tips for lithium battery storage safety. The single most important step when storing lithium batteries is to ensure the battery terminals are not in contact with any metals or other battery terminals.

How do you maintain a lithium ion battery?

Our last Lithium-ion battery maintenance tip has to do with over-discharging. We have the most control over our charging habits. While charge and discharge create heat, there is also an optimum state for batteries to be in for both use and storage. Charge your batteries when you drop from two bars to one.

How should lithium-ion batteries be handled?

Lithium-ion batteries should be handled separately from regular household trash and brought to electronics recyclers or hazardous waste collection facilities instead. Failure to do so can lead to lithium-ion battery fires, which pose a risk to both the waste management system and public safety.

What are the best practices for lithium-ion batteries?

It is noteworthy to mention that most of the best practices for lithium-ion batteries revolve around the 3 major components: temperature range, state of charge (SOC), and current. These are the 3 main variables that greatly impact the health and life of lithium-ion batteries, causing either capacity fade or power fade.

How do you pack a lithium battery?

Pack electrical equipment and any spare batteries in rigid packaging, like a cardboard box. The inner contents must be prevented from moving by using cushioning material. Seal the boxes with parcel tape and affix lithium battery handling labels, if requested.
