

How long does a solar panel's power warranty last?

Most solar panel power warranties nowadays offer linear degradation, meaning a 0.7% output loss per year. However, some manufacturers like SunPower offer a much higher output guarantee after 25 years. In the past, power warranties were stepped, guaranteeing 90% output after 10 years and 80% output after 25 years.

Do solar panels have a warranty?

The batteries do have limited warranties but as there are no moving parts involved not a lot can go wrong, if there are any inherent manufacturing problems with a cell or unit this will most likely come to your attention well inside the warranty period. Inverters are the single most expensive component to replace in your solar panel system.

What is a power warranty for solar panels?

A power warranty for solar panels states the expected output of a panel after certain periods of time (eg 5 years, 10 years, 20 years). All solar panels are affected by gradual degradation in efficiency, so the output will decrease. If the panels do not perform as promised, you may be able to get them replaced or repaired - but some power warranties do not cover defects.

How long is a battery warranty?

25-year limited power warranty (typically 10 years at 90% power output and 25 years at 80% power output). Workmanship and materials warranty of one or two years. Batteries (non-grid systems / hybrids) roughly 5-15 years. Inverter (s) warranty of between 5-10 years.

How long does a solar panel last?

For instance, after 10 years, a panel might guarantee 90% of its original efficiency, and after 25 years, 80%. This type of warranty is crucial as it assures buyers that their investment will remain efficient over time. Product warranties are separate from performance warranties and cover defects in materials or workmanship.

Do solar panels need insurance in the UK?

Often, insurers and manufacturers may need to collaborate to ascertain the cause and decide on the responsibility for repair or replacement. By having both robust warranties and comprehensive insurance, solar panel owners in the UK can ensure maximum protection for their investment.
