

Why do we need a battery testing center in the Netherlands?

This is related to the Netherlands' strong heritage as a hotspot for testing and validation of electric systems. The expertise and network accumulated at these centers are invaluable for boosting and scaling development of the next generations of batteries for a wide range of purposes.

Who is wetac Battery Company?

Wetac Battery Company is a global supplier of batteries and accessories in various sectors. Our headquarter is situated in Ede (Netherlands), we also have subsidiary companies in Germany, Switzerland, England, Greece and the Czech Republic. We serve clients in over 23 countries and consider ourselves a major player on European level.

Which countries are leading the development of next-generation battery materials & components?

Within Europe, the Netherlands is one of the leading countries when it comes to developing next generation and more sustainable battery materials and components. It already has four silicon anode companies - one of the highest concentrations of next generation battery companies.

What kind of batteries do you sell?

We sell alkaline, lithium and rechargeable batteries and the chargers for NiMH and lithium ion batteries. We sell all brands like Duracell, Procell, Energizer, Varta, Panasonic, Saft. All is in stock and will be sent every day.

Who makes deep cycle batteries?

In addition to that, we're Master Distributor for U.S. Battery in Europe - leader in the manufacturing of DEEP-CYCLE lead/acid batteries. Our batteries are used in golf carts, scrubbers and sweepers, electric wheelchairs/scooters and aerial work platforms.

Why is the battery competency cluster NL important?

The domestic need for a robust and affordable, self-reliant net-zero energy system, combined with our capabilities, a large international market and momentum, has boosted battery ambitions in the Netherlands. It led to the establishment of the Battery Competence Cluster NL in 2019.
