

How much does a car battery cost?

As far as pricing, common sized battery such as 24,65 or 75 with a 2-3 year warranty and 500-700 claimed Cold Cranking Amps will generally cost between \$40-\$55 from a discount battery retailer, and \$75 to \$95 for a premium brand battery. We'll break down what this all means in the rest of our "Car Battery Price Guide".

Should I buy a Varta battery?

This means buying a Varta battery may maintain the OEM (original equipment manufacturer) spec of your car. Blue Dynamic is the name of Varta's mid-range car batteries, with the C22 designed for small and medium cars. It's ideal for older cars without a start-stop system. Bosch makes it easy to understand its range of batteries.

Do You stock Halfords car batteries?

We stock our own Halfords range of high-performance 12v car batteries alongside premium Yuasa car batteries. Batteries are sold with either a 3, 4 or 5 year guarantee (battery dependant). We also stock car battery chargers and charging accessories that will help to maintain the condition of your battery, keeping it working well for longer.

How much does a car battery replacement cost in the UK?

Having a car battery replaced professionally in the UK typically costs in the range of £162 to £460, including both the battery and labour installation costs, with prices varying significantly depending on the type of service center.

Should you buy a powerline car battery?

Given the low prices, a Powerline car battery could make good financial sense if you don't do huge mileage and have a car with minimal electrical components. Leisure batteries are predominantly used on the campsite in either campervans, caravans, or motorhomes.

Where can I buy a car battery?

At Halfords, we're with you for the journey. Get a car battery check, buy a replacement car battery and have it fitted at Halfords or at home. Buy online or in-store!
