

How do I inflate the Vango AirBeam Sky Canopy?

To inflate the Vango AirBeam Sky Canopy, simply inflate it with the single beam in minutes. It's great for any campsite as a space to escape the sun and relax in the shade or creating a covered entry from the rain. Optional sidewalls can be attached for added privacy or shade using the SkyTrack II System.

How do I attach the AirBeam® Sky Canopy side walls?

Create a cosy enclosed living area with the AirBeam® Sky Canopy side walls. Easy to attach, simply slide the SkyTrack clip onto the side of the sun canopy using Vango's SkyTrack II® System. Ideal for any campsite, adjust the height of the sides easily for your campervan, motorhome or caravan. Vango Airbeam Canopy Features

What can a free-standing solar canopy frame be used for?

Our free-standing solar canopy frames can be used as covered waiting areas, playground canopies, covered walkways, trolley shelters, solar canopies, alfresco dining canopies and much more.

Does a solar canopy pay for itself?

Your solar canopy will pay for itself over the years through the electricity the solar panels generate. Also, with energy bills increasing, the savings you will make on your bills will be greater than before, so now is the perfect time to invest in solar canopy or solar canopy.

Can I use a canopy with a solar panel?

Canopies are the perfect base for solar panels, allowing you to generate energy and provide shade and shelter at the same time. We have four canopy frames which can be paired with most solar panels. We will work with your solar panel provider to select the most suitable canopy for the panels.

What are solar canopies used for?

They can be used as either solar canopies or solar canopies and have a double purpose of providing shade and shelter from the elements, whilst collecting clean energy for your school or business. They are perfect for reducing your carbon footprint and saving costs on electricity bills.
