These innovative solar-powered structures seamlessly integrate sustainable technology with modern design, enhancing the outdoor experience for residents while providing clean, renewable energy. The installation features 13 dark amorphous silicon photovoltaic glass modules, elegantly incorporated into the palm tree-shaped structures that make up the iconic solar umbrellas .

The outdoor climate has a great influence on the structure of the building envelope, especially outdoor solar radiation and outdoor air temperature. The heating degree-day based on 18 °C (HDD18) and cooling degree-day based on 26 °C (CDD26) represent the building heating and cooling requirements, and can reflect the influence of outdoor air temperature on ...
