

Go anywhere and cut, burn, or pierce virtually any metallic, non-metallic or composite material with this exothermic cutting pack. Comes with all the necessary equipment and cutting rods required to do cutting when combined with standard industrial grade oxygen to support the exothermic reaction and to remove the molten metal.

Specially designed uncoated cutting rod, patented single piece construction maintains the balance necessary to sustain the exothermic reaction. ... Arcair Slice Rods 1/4 X 22 PKT25 (6.4mm) ... Arcair Slice Cutting Kit Battery Pack ...

Current: Arcair Slice Cutting Kit Battery Pack Previous Slide Next Slide . Arcair Slice Cutting Kit Battery Pack ... Arcair Slice Rods 1/4 X 22 PKT100(6.4mm) Free Delivery. Was \$333.75 Save \$66.75. Was \$400.50 ...

This product comes with all the equipment and cutting rods needed to apply cutting tasks when combined with industrial standard-grade oxygen to support the exothermic reaction and ...

Push Pull ; Standard ; Plasma Torches; Manual Plasma Torches ; Mechanized Plasma Torches ; TIG Torches; ... SLICE Exothermic Cutting Rods, Flux Coated, 1/4 x 22 - 100 Pcs . Product number: ... SLICE Battery Ignition Source . Product number: 96-076-040. Description: ...

SLICE Battery Ignition Source. 96-076-040: Power Adapter w/ Europe Power Lead. 96-076-042: SLICE Cutting Torch CE w/ #10 Power Cable (When Igniting w/ 12V Battery & Cutting w/o Power) ... SLICE Exothermic Cutting Rods, Flux Coated, 1/4 x 22 - 25 Pcs: 42049002. SLICE Exothermic Cutting Rods, Uncoated, 3/8 x 36 - 25 Pcs: 43049009.

of carrying a 9" diameter cylinder. The Industrial SLICE Pack includes SLICE torch and striker assemblies with 0 feet oxygen hose and power cables. Also included is an industrial battery ...

Economical 1/4" x 22" rods. Heavy duty 3/8" diameter rods for wider cuts through thick materials and those heavy piercing jobs. Flux coated rods for more cut per rod inch and good arc stability when operating with power. There's even a 1/4" x 44" uncoated rod for cutting in hard-to-reach areas. And, all SLICE cutting rods cut fast - because once

Arcair®; SLICE®; Battery Pack provides the end user everything required to immediately begin the exothermic cutting process once connecting the SLICE torch to a cylinder of oxygen. It comes with its power source, a 12-volt battery box to initiate the burn of the cutting rod. Unlike any other cutting technology.

Comes with all the necessary equipment and cutting rods required to do cutting when combined with standard industrial grade oxygen to support the exothermic reaction and to remove the ...
