

What is solar street lighting?

Solar street lighting is an excellent solution for temporary or essential works lighting. Solar lights, using redeployable solutions such as the below concrete blocks, can be installed quickly without the need for a mains connection, providing immediate illumination. This flexibility is beneficial for essential work or emergency repairs.

What is vibrant solar street lighting?

At Vivid Solar Street Lighting we design and build carbon neutral solar lighting solutions that work as an alternative to conventional street lighting in both commercial and domestic settings.

Is solar street lighting a viable solution in the UK?

Solar street lighting is becoming an increasingly attractive and sought-after solution in the UK.

Is solar street lighting a sustainable choice?

With solar lighting, you're in control of your lighting needs. Once installed, solar street lighting operates at virtually no cost. With no ongoing electricity expenses, solar street lighting is not just a sustainable choice, but a financially savvy one. This is especially true as global energy prices continue to rise.

Why should you choose vivid solar street lighting?

Vivid's solar lights are both robust and aesthetically focussed, with custom designs that can be tailored to your specific application. Save energy, time, and money with the Helios from Vivid Solar Street Lighting. The innovative Helios using the latest LED technology is ideal, whether situated in a residential, commercial or industrial setting.

How do I choose the right solar street lighting?

Choosing the right solar street lighting can dramatically reduce installation costs but requires careful consideration. Here's what to look for: Solar Panel: Check panel power (Watts), size (M²), and efficiency (%). Higher values generally mean better performance. Solar Irradiance: Know the solar power available in your location.
