

What is a solar workstation?

Much more than a simple picnic table, the 'Solari' solar workstation brings a unique combination of a stylish work station, illuminated dining table, phone charging point, 120V AC power supply and internet access point to any outdoor location, all in a single, fully integrated unit, free from any connection to mains AC supply.

What is a Sunbolt solar workstation?

Sunbolt Solar Workstations are engineered with the highest solar power output, providing superior off-grid autonomy and charging performance. They are equipped with multiple charging outlets and high-capacity battery banks, making them ideal outdoor site amenities for charging cell phones, tablets, laptops, and other mobile devices.

Are Sunbolt solar workstations NEC compliant?

With multiple charging outlets, customizable branding options and outstanding durability, Sunbolt Solar Workstations deliver reliable power that will enhance any outdoor space. These off-grid, NEC-compliant workstations are ideal for charging smartphones, tablets, laptops, and other mobile electronics that utilize a battery.

Where can I find solar charging workstations?

Solar charging workstations can be found at college and corporate campuses, outdoor classrooms and offices, parks & trails, business parks, golf courses, and stadiums throughout the United States.

What is a solar charging station?

A solar charging station, such as Sunbolt's Solar Charging Workstations, powers productivity using the sun. These stations can charge laptops, smartphones, tablets, and other mobile devices. This warm and inviting hub is perfect for studying, socializing, and keeping everyone -- and their devices -- in charge.

Which Sunbolt workstation is suitable for me?

Sunbolt's CampusXL is suitable for studying, socializing, and keeping everyone in charge. Equipped with 120V, USB and USB-C outlets, Qi Wireless Charging and two attached benches, it is a powerful hub that is sure to make a statement on campus or any large outdoor space.
