How xindun's solar kits work in Myanmar?

Being a distributor of Xindun's solar kits in Myanmar has been a rewarding experience. Xindun's solar products, designed to overcome Myanmar's power infrastructure challenges, have empowered us to address the energy needs of diverse Myanmar markets.

You'll likely need two batteries during the life of your solar panels. Batteries last around 15 years, while solar panels last about 25 years. Consider if you'll recoup the costs over the life of your solar panels. As an example, if a £5,000 battery lasts 15 years, you need to be saving about £330 a year to break even.

You can then use that stored energy to power your home after dark. A solar PV system with a storage battery cuts your annual electricity bill by hundreds of pounds more ...
