

Who is tecman?

Within the ever-evolving and dynamic e-mobility sector, Tecman is a trusted and proven partner to unlock innovation with knowledge of advanced thermal management solutions, cutting-edge materials, bonding adhesives and electrical management solutions for electric vehicles and EV battery development.

What is thermal management for EV battery development?

Our advanced thermal management solutions for EV battery development provide superior performance against EV thermal runaway events using ultra-lightweight insulation materials with the highest thermal insulation to weight value of any material.

Are tecman ATP pads available in Europe?

Tecman has announced developments in anti-thermal propagation (ATP) technology and are now making its framed and encapsulated ATP pads available through out Europe.

Who makes forklift traction battery chargers?

Our forklift traction battery chargers have been manufactured by Battery Charger Industries. We stock both high frequency forklift battery chargers, and conventional forklift battery chargers.

What if I can't find battery components or accessories?

If there's any battery components or accessories that you can't find on our website, or if you require a bespoke item, simply give us a call on 0800 158 5606 and one of our team will be happy to help.
