

The new EV battery tech promises a longer driving range, faster charging, and significantly higher energy density. Here's what to expect. When are Hyundai's all-solid-state EV batteries coming?

Developers, engineers, and battery manufacturers should also look for opportunities to grow their workforce in tandem with the market. There is a lot of great work being done to promote new career opportunities in the ...

1 ?&#0183; Latest News. Norway nears 100% goal of all-electric cars; Scientists develop revolutionary battery tech with a game-changing safety feature -- here's how it could reshape an entire industry; Hydrogen annealing approach sets new efficiency record for kesterite solar cells

The first is more energy, which is effectively a must for any new battery. Luebbe says improvements of up to 50% are possible, although initial figures from Molicel are more in the range of 20%.

5 ???&#0183; Subscribe to bestmag. Find a wealth of information on the energy storage and battery industries with BEST Magazine. From all the latest news to in-depth technical articles, we have everything you need in print and online.

Battery technologies are central to electric vehicles (EVs.) These technologies have become more sophisticated in recent years, providing enhanced performance for electric vehicles. This article will provide an ...

The new EV battery tech promises a longer driving range, faster charging, and significantly higher energy density. Here's what to expect. When are Hyundai's all-solid-state EV batteries...

Latest Stories. A U.S. solar industry group on Wednesday unveiled an aggressive goal to deploy vast amounts of energy storage capacity by 2030 to help renewables serve ...

Manufacturers and suppliers of batteries for photovoltaic energy storage must meet more extensive requirements under the new EU battery regulation. Many companies are still unsure what this means ...

A promising best-of-both-worlds approach is the Our Next Energy Gemini battery, featuring novel nickel-manganese cells with great energy density but reduced cycle life, working alongside LFP cells ...

Chery Auto announced during the recent 2024 Chery International User Summit that it would launch its all-solid-state battery in 2026 under its new Kunpeng battery brand. Initially, the tech will be offered in three battery series, all capable of ultra-fast 6C charging - adding 400 KM of range in just 5 minutes.
