

Why is Transnistria at risk of a major energy crisis?

Moldova's breakaway region of Transnistria has been thrust into a profound energy crisis following the termination of a five-year gas transit agreement between Russia and Ukraine. Alongside Slovakia and Austria, Moldova was thought to be one of the country's most at risk from the cessation of Russian gas supplies.

What is happening in Transnistria?

Transnistria, a breakaway Moldovan province loyal to Russia, has been in the headlines this week amid an energy crisis triggered by a recent Ukrainian decision to suspend a Russian gas deal via its territory to the region.

Does Transnistria have electricity?

Historically, Transnistria had covered most of Moldova's electricity needs through the Cuciurgan power station, which functioned with Russian gas supplied to Transnistria for free.

Does Russia still buy energy from Transnistria?

Despite ending gas purchases from Russia, it still bought large amounts of its energy from Transnistria, which uses Russian gas to generate electricity at the Cuciurgan power plant. The Cuciurgan power station in Transnistria turns Russian gas into electricity, some of which it sells to Moldova.

Will Transnistria run out of energy in 3 weeks?

In the capital of Transnistria, a Kremlin-backed microstate sandwiched between Moldova and Ukraine, the festive New Year's lights have gone dark ahead of schedule. This separatist sliver of Moldova will run out of energy in three weeks, the head of its Russia-backed government has said.

Can Ukraine beat Russia in Transnistria?

Ukraine has a chance to beat Russia in Transnistria without firing a shot. The breakaway republic of Transnistria has been plunged into an energy crisis following the end of Ukrainian transit of Russian gas. If it is Kyiv and not Moscow that comes to the unrecognized statelet's aid, Russia risks losing any remaining influence in the region.
