

Are Duracell car batteries good?

Duracell is about as big a name as it gets in the battery world, and drivers may be pleased to learn that the well-known brand manufactures car batteries too. In terms of customer reviews, Duracell's car batteries are some of the best out there, and they're pretty highly rated.

Where can I buy a Duralast car battery?

They're available from most outlets that sell car batteries. Duralast has some of the highest customer review ratings of any battery on this list, with many of its Gold and Platinum batteries picking up 4.7 or 4.8 out of 5 at many major retailers.

Should you buy a car battery?

Car battery shopping has to be one of the least exciting parts about owning a car. Usually, it comes after several attempts at starting the vehicle, or after you had to call AAA to jump a dead battery. Sometimes it's a bad cell, sometimes the battery keeps dying, and sometimes the battery is just ready to be replaced.

Does AutoZone sell Duralast batteries?

Duralast is a battery brand owned by popular parts store AutoZone. However, unlike some other store-brand car batteries, you don't need to visit AutoZone to get your hands on a Duralast battery. They're available from most outlets that sell car batteries.

Are GM batteries worth it?

While they are officially recognized by General Motors as "the only batteries recommended by GM" for their vehicles, they don't offer anything spectacular when it comes to features or options.

What's the difference between a standard battery and a platinum battery?

It has a standard battery with a two-year warranty at the bottom end, a "gold" line that packs a three-year warranty along with "maximum cold cranking amps and reserve capacity ratings," a Platinum EFB battery that contains "proprietary carbon additives" is designed for tech-packed vehicles and cars with a stop/start system.
