

How do warlocks gain damage?

Early on as a Warlock, the biggest thing you gain damage from is Shadow Damage. This gives you more mana from Life Tap and much more damage on both Shadow Bolt and Corruption. Because of this and because it is very hard to come by Shadow Damage on a lot of low-end items, Green items of Shadow Wrath are often the top tier item in each slot.

How do Affliction warlocks work?

As an Affliction Warlock, you want to cast as many Malefic Raptures as possible during your Burn Windows. Burn Window is whenever you have Soul Rot with Phantom Singularity or Vile Taint up. Thus, your main goal is to save as many Soul Shards as you can for those windows without overcapping them.

How do warlocks work in World of Warcraft?

Weave chaotic fire and fel energies together to create catastrophic spells, unleashing them in a blaze of devastation. Select a specialization below! Warlocks are the dark arts casters of World of Warcraft, embodying the desire to reach new highs, through the use of demonic powers and summoning demonic minions to aid in their quest for dominance.

What specializations can a warlock choose?

Here you will find a quick overview of the specializations Warlock can pick and choose from, with links and in-depth information available to each specs Talents, Builds, Rotation, Gear and much more. Wield dark curses and soul-draining magic to spreading agony and decay, slowly consuming the life of your enemies.

What holds a warlock back?

What generally holds Warlocks back is their utility, which is mostly comprised of Curses and Healthstones or the occasional Demonic Gateway skip. Command demons from the Twisting Nether, or devastate your enemies with fel-flame and soul-draining magic with our Warlock guides!

How do you min-max an affliction Warlock in raiding?

For min-maxing an Affliction Warlock in raiding, different racial traits can provide a tremendous benefit to your character. If this is not your top goal, picking a race that fits your style works just as well. Dispels Magic and Bleed debuffs. Has been useful in the past on some bosses with Bleeds.
