

Where is the world's most advanced battery manufacturing facility located?

Boston-Power, Inc. announced that the company is working to build what it describes as one of the world's most advanced battery manufacturing facilities in Auburn, Massachusetts.

Who makes lithium ion batteries?

Boston Power manufactures and markets lithium-ion batteries for transportation, utility energy storage, portable power, and government market applications internationally. It offers battery cells, blocks, modules, and systems; lithium-ion batteries for electric vehicles; and custom solutions for various format battery packs.

What is the largest solid-state battery assembly line in the US?

With a capacity of 200 MWh, it is said to be the largest solid-state battery assembly line in the US to date. Factorial Energy, the US developer of solid-state battery cells backed by Mercedes-Benz, Stellantis and Hyundai-Kia, has opened its manufacturing facility in Methuen, a Massachusetts suburb of Boston.

Where are the best battery companies in the world?

The Boston area is home to some of the most well-renowned battery innovation companies in the world. Formed out of research at MIT, Worcester Polytechnic Institute and other nearby research institutions, these companies are developing technology that could power electric vehicles and smart grids of the future.

Where are lithium-ion batteries made?

The company is also pursuing funds through a proposed program allocation in the FY10 federal budget under the Defense Production Act, which encourages the building of manufacturing facilities in the United States that are important for national security reasons. Currently, nearly all lithium-ion batteries in the world are manufactured in Asia.

Could Boston-area battery companies power electric cars and smart grids?

Formed out of research at MIT, Worcester Polytechnic Institute and other nearby research institutions, these companies are developing technology that could power electric vehicles and smart grids of the future. Venture capital firms are betting big on Boston-area battery companies, too.
