Where to buy lead-acid batteries at a good and cheap price

with other ...

A typical lead-acid motorcycle battery for a litre-superbike weighs around 4kg, a lithium equivalent weighs around 750g. Lithium batteries have a better cranking power and a longer life than a lead-acid battery. They don't sulphate, either - so if you are rubbish at keeping your battery topped-up, a li-ion battery is a good option.
