

Where to buy the battery panel for the pen spinner

What is a vision spinner 2 battery?

The Vision Spinner 2 is one of the biggest selling vaping batteries of all-time and for good reason too, it's very simple to use and houses a huge 1650mAh capacity! The main feature of the Spinner 2 battery is the variable voltage dial built into its base, this dial 'Twists' in a clockwise or anti-clockwise motion to set your preferred voltage.

How does a spinner II vape pen work?

The Spinner II vape pen battery regulates the power output with the wheel on the base; the voltage changes with the wheel's rotation and works in a range of 3.3V to 4.8V. Keep in mind once the Spinner II vape battery charge is on half and below, the Spinner II vape pen will drain the battery charge much faster on higher voltage.

How do I use the vision spinner 3 s battery?

Check out the NEW Spinner 3 S vape pen battery featuring an all-new design and upgraded built-in battery with adjustable power. Using the Vision Spinner 3 is super simple; it has a single button that turns the battery on or off with five clicks, and the convenient rotating dial at the base allows you to adjust the power setting.

What is a pen spinner?

A few basic terms: Pen spinners refer to fingers on the hand with letters and numbers--the thumb is "T," the index finger is 1, the middle finger is 2, the ring finger is 3, and the pinky finger is 4.

How to use the Vision Spinner Battery Mod?

The Vision Spinner Battery Mod has a 5-click On/Off lock feature. To activate or turn it off, press the button 5 clicks within 2 seconds. It works with both 510 and EGO gear and has a smooth turning voltage adjustment dial with a range of 1.3.3v to 4.8v.
